### Product Summary

Action Gate Lodge Climbing Frame, a great set for your garden.

### Product Description

#### Action Gate Lodge Climbing Frame and Swing Arm

The Action Gate Lodge Climbing Frame and Swing Arm is a complete domestic playset as shown in the picture above, offering a great range of play equipment at an exceptional price. The layout of the equipment can also be changed from the

picture above to suit your garden.

The pressure treated timber is selected from top grade pine growing in sustainably managed forests (under the Programme for the Endorsement of Forest Certification scheme - PEFC). The timber is also planed smooth with rounded edges, and all fixing holes and nut recesses are pre-drilled.

In addition, all fittings and fixings are galvanised or stainless steel. This helps to prevent rust and the slide also contains UV ray resistant material.

Action Gate Lodge Climbing Frame set includes: - Tower - Balcony - Extended Wooden Roof - Inclined Rock Wall - Access Ladder - 3m Wavy Slide (green) - Sandpit (the Gate Lodge is also available without the Sandpit) - Double Swing Arm (the Gate Lodge is also available without the Swing Arm) - 2 x Timber Swing Seats - VAT - Full instructions - Free delivery (Mainland England, Scottish Lowlands and Wales only (please contact us for other areas))

The swing seats listed above are standard with this set. However, you can purchase other compatible seats or accessories (see below).

**Finally, please note:** Each upright post has to be set in to a hole and back-filled with concrete (pre-mixed bags like 'Postmix' are easiest).

This is a Factory Direct item so returns will incur a shipping and restocking charge.
